SOURCE Universul.RUMANIAN SOWING CAMPAIGN IN APRIL 1952

STATUS OF SOWING CAMPAIGN, 23 APRIL 1952 -- Bucharest, Universul, 25 Apr 52

According to information received from the Ministry of Agriculture on 23 April 1952, the leading sowing regions of the country were Severin, Valcea, Bucharest, and Bihor. These regions accomplished over 80 percent of the set plan.

However, the Constanta, Putna, and Bacau regions completed only 65.5 percent of the norms because not all of the local resources and manpower had been used.

The regions far behind in the sowing campaign are Ialomita, Teleorman, Galati, Iasi, Botosani, and Suceava (shown in black on Map 1 appended). This lag is inexcusable, especially at this time, when the sowing period is almost over.

All party organizations and executive committees of the people's councils must mobilize all existing forces to complete the sowing campaign successfully.

SOWING PROGRESS, 27 APRIL 1952 -- Bucharest, Universul, 29 Apr 52

According to information received from the Ministry of Agriculture on 27 April 1952, the regions of Valcea, Severin, Arges, Timisoara, Stalin, and others marked in white on appended Map 2 are leading in the sowing campaign.

In the Ialomita, Constanta, Galati, Botosani, and Suceava regions, spring sowing is still behind schedule. Farmers and collective workers are urged to meet their quotas by 1 May.
